Subject my class evaluation paragraph

Ethan Pennington is a great facilitator. The way he breaks down the lessons and articulates his passion for us to succeed is amazing. I plan on using every valuable piece of information and implementing it in to my life, as well as my future company. Ethan has helped motivate and inspired me to keep fighting and pushing to fulfill my goals and dreams! I encourage anyone looking to better him or herself as a man or woman. To follow his advice and take action immediately. I can not wait to be released so that i can put my feet in motion to reach and achieve my goals, big and small. Thanks again Ethan for believing in yourself and becoming someone you love and respect. Now i can look myself in the mirror with confidence and tell myself. Change is good, you can do this, you got this!
